SUMMARY

Full Stack Web Developer specializing in MERN stack development with proven expertise in building secure, scalable applications that improved operational efficiency by 15-30%. Led development teams of 3+ members in Agile environments, delivering user-centric solutions with a focus on performance and security. Seeking a Full Stack Developer role to leverage technical expertise in creating innovative, high-impact solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, jQuery, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, GraphQL
Databases: MySQL, MongoDB, Sequelize ORM, Mongoose ODM
DevOps & Tools: Git, AWS (S3, DynamoDB, EC2), Jest, Nginx, npm, Webpack
Methodologies: Agile, Scrum

EDUCATION

Google Project Management Certificate | Google | Toronto, ON | September 2024
- Mastered Agile and Scrum methodologies
- Developed expertise in project planning and team leadership

Full Stack Web Development Certificate | University of Toronto | Toronto, ON | March 2024
- Completed intensive web development program focusing on full-stack MERN development and modern practices
- Created multiple production-ready applications with emphasis on scalability, security, and industry best practices

PROJECTS

AdminAccess | View Site | Source Code
Employee data management solution using the MERN stack, featuring secure authentication and an intuitive admin interface.
- Led a team of 3 developers, implementing secure user authentication with Bcrypt encryption
- Developed comprehensive CRUD functionality for departments, roles, employees, and managers
- Enhanced UI/UX with responsive design principles and real-time data updates
- Utilized Agile methodologies for efficient project management and team collaboration
- Implemented secure data handling practices and role-based access control
- **Technologies:** JavaScript, React, Node.js, Express.js, MySQL, Sequelize, Bootstrap

RendezView | View Site | Source Code
Event planner web application enabling users to browse, create, edit, and delete events, fostering community engagement.
- Architected and implemented user authentication system and database schema
- Led backend development, optimizing database queries for efficient data retrieval
- Integrated Google Maps API for location services with geocoding functionality
- Designed responsive UI/UX supporting multiple device formats
- Implemented real-time event updates and notifications system
- **Technologies:** HTML, CSS, Bootstrap, JavaScript, jQuery, Node.js, Express.js, MySQL, Sequelize, Handlebars, Google Maps API

FilmFinder | View Site | Source Code
Movie database application allowing users to search, view details, and maintain a personalized watchlist of movies.
- Developed dynamic search functionality with real-time results
- Implemented client-side data persistence using localStorage
- Optimized API request handling to prevent rate limiting issues
- Created responsive UI with Bootstrap for cross-device compatibility
- Integrated multiple third-party APIs for comprehensive movie data
- **Technologies:** HTML, CSS, Bootstrap, JavaScript, jQuery, The Movie Database API, Watchmode API

EXPERIENCE

Grill Cook | Eastbound Brewing Co | Toronto, ON | October 2018 - Present
- Built web-based inventory tracking app, reducing discrepancies by 30%
- Optimized kitchen operations, reducing order prep time by 15%
- Maintained 4.5/5 customer satisfaction rating in high-volume environment
- Implemented FIFO inventory system, reducing waste and costs by 20%

Warehouse Crew Leader | Young Guns | Vancouver, BC | May 2021 - May 2022
- Managed logistics and teams, improving turnaround by 20% and productivity by 15%
- Ensured safe handling of freight, maintaining zero-incident record
- Implemented team rotation system, reducing fatigue and sick days by 10%

SKILLS
- Advanced problem-solving and debugging capabilities
- Strong technical communication and documentation
- Team leadership and project management
- Critical thinking and analytical skills
- Adaptability to new technologies
- Excellent time management
- Cross-functional team collaboration
- Strategic planning and execution
- Detail-oriented quality assurance
